## McLaren 570GT is back in black with the MSO Black Collection limited to 100 examples worldwide

- New 570GT MSO Black Collection features all-black, stealth design
- Exterior modifications include MSO Bespoke Carbon Black paint, MSO Defined Black Pack, MSO Nano Black Exhaust Finisher and Gloss Black Diamond Cut wheels and Black Brake Calipers
- Luxurious interior comprises bespoke Dedication Plate, MSO Black Collection Trim featuring upgraded Semi-Aniline Leather seats with Carbon Black Alcantara® Accents, Carbon Black Alcantara® Steering Wheel and MSO Defined Ignition Key in Carbon Black
- Driving thrills enhanced with MSO Defined Titanium SuperSports Exhaust and Sport Pack dynamic handling package
- Limited to just 100 examples worldwide; priced at £179,950 with deliveries this Summer

McLaren Special Operations (MSO), the bespoke division of McLaren Automotive, is extending its Sports Series offering with the 570GT MSO Black Collection. Featuring new MSO Bespoke Carbon Black exterior paint, as well as an MSO Defined Titanium SuperSports Exhaust and Sport Pack dynamic handling package to further amplify its sporty character, the collection is limited to only 100 examples globally. Priced at £179,950, the car promises to be a true collectable and offers enhanced driving thrills and a wealth of unique MSO content.

The exterior of the vehicle is finished in Carbon Black, a striking and extremely deep colour, developed specifically by McLaren Special Operations. The stealth theme extends to the MSO Defined Black Pack replacing standard-fit Dark Palladium components including front and rear splitters, side skirts and air intakes with black. Completing the look are the 5 Twin-Spoke Lightweight Forged Wheels with a new Gloss Black Diamond Wheel Finish shed with Pirelli P Zero™ Corsa Tyres and Black Brake Calipers with Carbon Ceramic Brakes.

The luxuriously-appointed interior of the McLaren 570GT is further enhanced with new MSO Black Collection Trim, which includes a unique combination of Jet Black Leather with Carbon Black

KENWOOD

RICHARD MILLE

Alcantara® accents on the centre tunnel, lower instrument panel, headliner, steering wheel and speaker surrounds. The Electric and Heated Memory Sports Seats are wrapped in Semi-Aniline Leather featuring unique MSO logo embroidery on the headrests. The high attention to detail continues with an MSO Defined Ignition Key painted in Carbon Black and a bespoke Dedication Plate located under the centre console. A Panoramic Roof incorporating a UV-filtering black privacy tint glass is standard and can be upgraded at additional cost to the MSO Defined Electrochromic Panoramic Roof that was recently introduced to the MSO Defined range for the 570GT only. The electrochromic roof – a £4,750 option at point of vehicle purchase – allows customers to select their preference from five different degrees of tint using electrochromic ‘smart glass’ technology.

The McLaren Sports Series is renowned for delivering a thrilling driving experience and the 570GT MSO Black Collection continues this tradition. The car features carbon-ceramic discs combined with the new dynamic Sport Pack, which gives customers sharper dynamic settings of the 570S Coupé and Spider. Increasing the drama even further is the MSO Defined Titanium SuperSports Exhaust with Nano Black finisher, which reduces the weight of the vehicle by five kilograms and provides a crisper exhaust tone which is 5dB louder than in the standard system. The 570GT MSO Black Collection also includes the GT Upgrade Pack comprising Vehicle Lift, Rear View Camera, Power Adjust Steering Column and the ground-breaking 12-speaker Bowers & Wilkins Audio System.

Rob Melville, Design Director at McLaren Automotive commented: *“McLaren Special Operations allows our customers to fully express themselves through their cars; and the new 570GT MSO Black Collection is no different. Black is a colour associated with elegance, power and authority whilst also surrounded by a certain air of mystery. The end result remains true to the luxurious nature of the 570GT but we managed to further amplify its sleek, sporty character with a wealth of new MSO Defined options which I am sure will delight discerning owners.”*

About McLaren Automotive:

KENWOOD

RICHARD MILLE

McLaren Automotive is a creator of luxury, high-performance sportscars and supercars.

The company, launched in 2010, is now the largest part of the McLaren Group.

Every vehicle is hand-assembled at the McLaren Production Centre (MPC) in Woking, Surrey, England.

The company has three defined product families: Sports Series, Super Series and Ultimate Series which are retailed through over 80 retailers in 30 markets around the world.

McLaren is a pioneer that continuously pushes the boundaries. In 1981, it introduced lightweight and strong carbon fibre chassis into Formula 1 with the McLaren MP4/1. Then in 1993 it designed and built the McLaren F1 road car - the company has not built a car without a carbon fibre chassis since. As part of the Ultimate Series, McLaren was the first to deliver a hybrid hypercar, the McLaren P1™.

Announced in 2016, the company's Track22 business plan will see the company invest £1billion in research and development to deliver 15 new cars or derivatives by the end of 2022, of which at least half will be hybrids.

2017 saw the company launch further models in line with Track22 including the second-generation Super Series, the 570S Spider and the McLaren Senna.

To support the development, engineering and manufacture of its range of innovative sportscars and supercars, McLaren Automotive partners with world leading companies to provide specialist expertise and technology. These include AkzoNobel, Kenwood, Pirelli and Richard Mille.

#### **McLaren Group:**

The McLaren Group is a global leader in luxury high performance and technology and comprises three principal businesses: Automotive, Racing and Applied Technologies.
